2022–2023 SHIRE OF KOORDA BUDGET

Council has been guided by the Strategic Resourcing Plan (2020-2035), in implementing a 2.5% rate increase within this budget.

The Budget seeks to balance the demand for services and infrastructure with the community's capacity to pay. The key budget information, as provided throughout this document, considers rates and non-rates income, operating result, service levels, cash and investments, capital works, financial position, and key strategic activities of Council.

In the 2021/2022 Budget, Council committed to commissioning consultants to engage with the community across all facets of community life - looking at what we do best as a community, the challenges we face now and into the future, and how we portray our sense of community to those who travel through, or more importantly, to those who are considering our town as their new home.

In respect to the key strategic activities, it is important to note that these are informed by and align with the Shire's Integrated Strategic Plan adopted by Council on 20 April 2022 which incorporates the statutory-mandated Strategic Community Plan 2022-2032 and Corporate Business Plan 2022-2025.

The Budget also reflects other key strategic documents from the Western Australian local government sector's integrated planning and reporting framework such as the Shire's Workforce Plan 2022-2025 (adopted 20 April 2022). Town beautification and increased functionality has also led Council receiving the Town Scaping Plan at its March Council Meeting. Council and Staff have incorporated stages of these plans within the 2022/2023 Budget.

Phase Three of the Local Roads and Community Infrastructure (LRCI) funding has been a major focus for council within this budget - with an allocation of almost \$880,000 (projects to be completed by June 2023).

Council also notes the subsequent funding allocation of \$439,707 of Local Roads and Community Infrastructure funding "Phase 3 extension", which will be available from 1 July 2023, with construction due for completion by 30 June 2024.
