HARVEST BAN INFORMATION

With the Harvest Season upon us, we would like to take this opportunity to remind the community about the Harvest Ban and Total Fire Ban announcements.

SMS Service - The Shire of Koorda provides a SMS service. If you would like to register for this free service, please contact the office on 96841219 or email shire@koorda.wa.gov.au with your phone number. If you are currently registered for the service but have recently updated your number, please advise the office.

Radio - The ABC Radio also announce the bans on air. The designated tune-in times for listeners to hear harvest bans on weekdays are 10.05am, 12.35pm and 2.05pm. On weekends the times are 12.35pm and 2.05pm.

Facebook - All harvest and total fire ban announcements will also be posted on the Shire's Facebook page (Shire of Koorda). DFES will also post total fire ban announcements on their Facebook page (Department of Fire and Emergency Services WA).

The radio will not broadcast the lifting of a harvest ban. The announcement of the lifting will be posted on Facebook and sent out via the SMS service.

Please give staff time to set up the necessary services before seeking further information. Although local authorities are responsible for the placing of harvest bans, due to the vast area of the Shire, farmers must also take responsibility to ensure they carry out their harvesting operations in a safe and timely manner.

RESTRICTED ACCESS VEHICLE (RAV) NETWORK ACCESS – SHIRE STAFF RESEARCH REQUEST

Transport operators or farmers planning to use Restricted Access Vehicles (RAVs), such as Road Trains, B-Doubles and Truck & Dog Trailer combinations to complete any transport task, must first ensure the required public roads are approved for the appropriate RAV network.

As the sole authority to approve or decline RAV access, Main Roads Heavy Vehicle Services (HVS) is responsible for administering RAV access on all public roads in the State, which includes carrying out a thorough route assessment process to determine if roads are safe and suitable for RAV access.

Using the RAV Mapping Tool on the Main Roads website at www.mainroads.wa.gov.au is the simplest way to identify the approved RAV Network and access conditions (if applicable) for a particular road.

If the road required is not approved, transport operators or farmers can apply to HVS (Heavy Vehicle Helpdesk on 138 486 or email hvs@mainroads.wa.gov.au) to have it assessed for addition to the relevant RAV Network.

Whilst acknowledging this individual ‘case-by-case’ application process remains open to transport operators or farmers, Shire staff are undertaking research to determine whether a more strategic approach to establishing a fit-for-purpose Shire-wide RAV network may prove beneficial for stakeholders involved in completing local grain freight transport tasks.

To assist in this research, Shire staff would welcome nominations of Shire roads that transport operators or farmers would like to see added to the relevant RAV network that would lead to improvements to the local grain freight transport task.

As stated above, specific applications are made to HVS so it should be noted that any nominations are for research purposes to assist in developing a strategic framework for Council to use when considering any changes to the RAV network.

Road nominations (with a brief explanation of why, if possible) may be submitted by email to shire@koorda.wa.gov.au.
