WA PEST PARROT AND COCKATOO MANAGEMENT STRATEGY CONSULTATION

The Department of Primary Industries and Regional Development (DPIRD) is developing a Pest Parrot and Cockatoo Management Strategy for Western Australia, to help guide stakeholders in the effective management of pest birds.

Pest parrots and cockatoos compete with native bird species and can cause substantial damage to crops and infrastructure. Several species of parrots and cockatoos are declared pests under the Biosecurity and Agriculture Management Act 2007 (BAM Act) and are subject to control measures.

To assist the development of the WA Pest and Cockatoo Strategy, DPIRD are seeking input from all stakeholders and the WA community to provide an understanding of experiences with pest birds and expectations regarding future control efforts throughout WA.

For further information, and to provide feedback, please complete the online survey at yoursay.dpird.wa.gov.au/pest-parrot-management-strategy.
